

Attracted to more than one gender?

What we do

- **Run several 'Bi Chats'**

Monthly peer support discussion groups that provide a fun, safe space for bisexuals and their supporters. Please visit our Events page for up to date information.

- **Host two online (yahoo!) groups**

Melbourne Bi Chat provides a virtual space for general discussions about bisexuality and forming connections. *Victorian Bi Activism* is a place for keeping up to date with bi and related news, and opportunities for activism.

- **Promote awareness and acceptance**

This includes talking to media, providing education and a bi voice within various networks GLBTI and mainstream communities. We are happy to be contacted for requests for media comment or provide education to organisations about bisexuality. We also have a page on our website dedicated ("By the bi") to providing voices about experiences with being attracted to more than one gender.

Please note that while we use the term 'bisexual', we welcome anyone who experiences attraction to more than one gender, regardless of whatever identity you prefer including no label.
